AND BITS, ROUTER CUTTERS FOR WOOD & NON-FERROUS METALS

OSCAR WORKS - - - - - MEADOW STREET
SHEFFIELD, 3, ENGLAND.

29th August 1962.

Dear Sirs,

NEW AUGER AND BIT CATALOGUE
REFERENCE B.62

We have pleasure in enclosing copy of the above together with price list covering all items.

We are very pleased to say that increasing costs of many kinds and, in particular, the recent wage increase have been offset to a great extent by improved productive efficiency. We are, therefore, making no general increase in our prices but it has been necessary to make some minor adjustments where, on the old list price basis, such items were badly lagging behind actual production cost. Such changes have been kept to a minimum and we hope they cause you little or no inconvenience.

Your attention is drawn to the fact that in the new price list, prices throughout are each instead of as formerly per dozen. This is at the request of the trade and we hope it will simplify the use of our catalogue and price list.

The list prices are subject to the usual discount of less 33¹/₃% and no plusage applies.

This catalogue and price list cancel all previous catalogues and price lists with the prefix 'B' in the reference number and we strongly recommend you to destroy all such literature so as to avoid any misunderstanding in the future.

We are also enclosing with the catalogue, copy of our machine bit list reference M.T.62/9 together with price list. The prices in this list are all each less 20%.

The above prices come into operation for all orders received on or after the 1st of September 1962. There is no intention to make the new list prices retrospective prior to this date.

We thank you for your support in the past and we assure you of our very best attention at all times.

We are,

Yours faithfully,
For and on behalf of
WM. RIDGWAY & SONS LTD.

R. H. Phillips
MANAGING DIRECTOR.
